

## Regions Within Regions

The U.S. Census Bureau divides the U.S. into four main regions: the West, South, Northeast, and Midwest. But the U.S. has many smaller regions too. Use the map to answer questions about some of these regions.

**1** Which U.S. state is part of both the Southwest and the Gulf States regions? \_\_\_\_\_

**2** True or false: All of the New England states are in the Northeast. \_\_\_\_\_

**3** Why do you think the Gulf States region goes by that name? \_\_\_\_\_

\_\_\_\_\_

\_\_\_\_\_

**BONUS** Is your state, district, or territory located in any of the regions described here? If so, which one(s)? What features help make your region of the country special or unique?
